**Quantum Secure's CEO Speaks On Physical and IT Convergence At the Sixth Annual Security Growth Conference on March 5, 2008**

*Identity and Convergence Thought-leader Addresses Pain Points Facing Today's Business and Government Security Organizations*

San Jose, CA (March 4, 2008) — Quantum Secure, Inc., the leading provider of Physical Access and Identity Management Systems convergence announced today that President and CEO Ajay Jain will present at the Sixth Annual Security Growth Conference on Tuesday, March 5, 2008 at 11:35 a.m. PT. Mr. Jain will be presenting on physical and IT convergence solutions. The event is being held at Loews Santa Monica Beach Hotel in Santa Monica, CA.

To meet 1-to-1 with Mr. Jain during the conference, visit <http://www.securitygrowthconference.com/2008/meetings.asp> or email [contact@securitygrowthconference.com](mailto:contact@securitygrowthconference.com).

**About the Security Growth Conference (SGC)**

Now in its 6th year, the SGC has established a strong reputation in the Security Industry for spotlighting the leading companies in the industry and highlighting the key trends to a very high profile audience of respected business leaders and financial experts. For more information, visit [www.securitygrowthconference.com](http://www.securitygrowthconference.com).

**About Quantum Secure, Inc.**

Quantum Secure, Inc. is the leader in physical security and IT interoperability convergence. Our solutions address the challenges associated with diverse, disjointed and proprietary physical security infrastructure often found at enterprises and government agencies. Quantum Secure offers packaged software products that provide a single, fully interoperable and integrated physical security policy platform where data from various physical access controls (PACS) security systems are aggregated and normalized in real time. Quantum Secure's enterprise applications provides out of the box configurations and business processes ready for deployment. ROI is often realized within months by lowering cost of operations, accelerating response times to events / crisis, and sustained compliance. For more information, visit [www.quantumsecure.com](http://www.quantumsecure.com).
